

PLATO GOLD CORP

**For Immediate Release**

## **Plato Gold Announces a 5,000 metre drill program on the Nordeau Property in Val d'Or, Quebec**

**Toronto, June 12, 2008** – Plato Gold Corp. (TSX-V: **PGC**) (“Plato”) an exploration company with a portfolio of properties in significant gold mining camps in Northern Ontario, Northern Quebec, and Santa Cruz, Argentina is pleased to announce that it will be commencing a 5,000 metre drill program on June 25<sup>th</sup> on its Nordeau property in Val d’ Or, Quebec.

A drill contract has been signed with Forage Val d’ Or, the same drill operators who successfully completed Plato’s previous drill program which was completed earlier in March (Please see press release dated April 29, 2008.).

A.S. Horvath Engineering Inc. of Ottawa, Ontario recently completed a Gemcom 3D model of Plato’s drill results on the Nordeau Project and based on the promising results has designed the upcoming drill program with the goal to further define the tonnage and grade of the project when drilling is completed in mid August. The goal is to bring the Nordeau Project from a historic resource to a 43-101 compliant resource and to further upgrade the tonnage and grade of the project in order to move it forward to being a commercially viable gold deposit.

Anthony J. Cohen, President of Plato, said “I’m extremely excited about the progress on our Nordeau Project since we began our initial drill program, nearly 2 years ago. Assay results from our past drill programs have been extremely encouraging and we look forward to the results from the summer program.”

### **About Plato Gold Corp.**

Plato Gold Corp. is a Canadian junior gold exploration company listed on the TSX Venture Exchange. Plato has Canadian exploration projects in Northern Ontario, Northern Quebec and the Lolita Property in the province of Santa Cruz, Argentina. The Northern Ontario project includes 5 properties: Guibord, Harker, Harker-Garrison, Holloway and Marriott in the Harker/Holloway gold camp located east of Timmins, Ontario. The Northern Quebec project includes 7 properties: Nordeau Bateman, Vauquelin, Vauquelin Pershing, Vauquelin Horseshoe,

Pershing Denain, Hop O' My Thumb and Once Upon a Time. All 7 properties are located near Val d'Or, Quebec and Plato is in the early stage of exploring these projects. In Argentina, the Lolita Property is comprised of 3 contiguous concessions and initial work has been started on this property. #### **Cautionary Statements**

*This news release contains "forward-looking statements", within the meaning of the United States Private Securities Litigation Reform Act of 1995 and similar Canadian legislation, concerning the business, operations and financial performance and condition of Plato. Forward-looking statements include, but are not limited to, statements with respect to the benefits of the offering and option transaction. Generally, these forward-looking statements can be identified by the use of forward-looking terminology such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved". Forward-looking statements are based on the opinions and estimates of management as of the date such statements are made, and they are subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of Plato to be materially different from those expressed or implied by such forward-looking statements, including but not limited to risks related to: raising less than the required amount; not realizing on the anticipated benefits from the transaction or not realizing on such anticipated benefits within the expected time frame; risks related to exploration; actual resource viability, and other risks of the mining industry. Although management of Plato has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. Plato does not undertake to update any forward-looking statements that are incorporated by reference herein, except in accordance with applicable securities laws.*
