Plato Gold Announces Private Placement of 9,280,000 Units for up to \$1,020,800

Toronto, Nov. 30, 2007 – Plato Gold Corp (TSX-V: **PGC**) an exploration company with properties in Canada and Argentina, is pleased to announce a proposed private placement of up to 9,280,000 flow-through units at a price of \$0.11 per unit up to C\$1,020,800, subject to regulatory approval. This financing was originally announced on November 26, 2007 for aggregate gross proceeds of \$715,000. Due to overwhelming interest in the issue, the size of the issue has been increased to aggregate gross proceeds of \$1,020,800.

Each flow-through unit shall consist of one flow-through share and one non-flow through common share purchase warrant. Each warrant shall entitle the holder to purchase one hard dollar common share at an exercise price of \$0.20 per common share, on or before the date that is 12 months from the date of issuance of the warrant (the "Closing Date"), and thereafter at an exercise price of \$0.30 per common share, on or before the date that is 24 months from the Closing Date.

The warrant terms provide that if the company's shares close on the TSX Venture Exchange for 20 consecutive trading days at a price of \$0.30 per share or higher in the first year of the exercise period and at a price of \$0.40 per share or higher in the second year of the exercise period, the company may accelerate the expiry time to 30 calendar days from the date express written notice is provided by the company to the holder by way of registered mail.

All of the securities issued pursuant to this offering will have a hold period expiring 4 months after the closing date.

The proceeds from the private placement of flow-through shares will be used by Plato Gold Corp. for exploration work on its properties in the Val d'Or area in Quebec. Mr. Anthony Cohen, President and CEO of Plato Gold, stated "*Plato Gold is pleased to continue our exploration work in the Val d' Or region of Quebec. We are committed to our projects and are working to reach new milestones in our corporate growth.*"

Following the issuance of the common shares pursuant to a fully subscribed private placement, there will be 53,443,560 common shares issued and outstanding and 79,259,915 common shares on a fully diluted basis. The private placement is subject to regulatory approvals, including approval of the TSX Venture Exchange.
