PLATO GOLD CORP

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The consolidated financial statements were prepared by the management of Plato Gold Corp. (the "Company"), reviewed by the Audit Committee of the Board of Directors, and approved by the Board of Directors.

Management is responsible for the preparation of the consolidated financial statements and believes that they fairly represent the Company's financial position and the results of operations in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board ("IFRS Accounting Standards"). Management has included amounts in the Company's consolidated financial statements based on estimates, judgments, and policies that it believes reasonable in the circumstances.

To discharge its responsibilities for financial reporting and for the safeguarding of assets, management believes that it has established appropriate systems of internal accounting control which provide reasonable assurance that the assets are maintained and accounted for in accordance with its policies and that transactions are recorded accurately in the Company's books and records.

Independent Auditor's Report

To the Shareholders of Plato Gold Corp.

Opinion

We have audited the consolidated financial statements of **Plato Gold Corp.** and its subsidiary ("the Group"), which comprise the consolidated statements of financial position as at December 31, 2025 and December 31, 2024 and the consolidated statements of loss and comprehensive loss, consolidated statements of changes in shareholders' equity, and consolidated statements of cash flows for the years then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2025 and December 31, 2024, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IASB).

Basis for Opinion

We conducted our audits in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 and Note 2e) in the consolidated financial statements, which indicates that the Group has a net comprehensive loss of \$404,319 (2024 - \$1,366,094), a working capital deficiency of \$3,182,020 (2024 - \$1,366,094), has not yet achieved profitable operations, has accumulated losses of \$13,250,279 (2024 - \$12,869,441) and expects to incur future losses in the development of its business. As stated in Note 1 and Note 2 e), these events or conditions, along with other matters as set forth in Note 1 and Note 2 e), indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the Group for the year ended December 31, 2025 and December 31, 2024. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Material Uncertainty Related to Going Concern section of our report, we have determined the matter described below to be a key audit matter to be described in our report.

Independent Auditor's Report

To the Shareholders of Plato Gold Corp. (Continued)

Key Audit Matters (Continued)

Evaluation of Capitalized Resource Property Costs for Impairment

Description of the matter

We draw attention to Note 6 to the consolidated financial statements. At each reporting date, the Group must consider whether there is objective evidence of impairment in the mineral properties as a result of events that have occurred after the initial recognition of the resource property costs (a "loss event") and whether that loss event (or events) has an impact on the estimated recoverability of the resource properties. The Group's assessment of whether there are any indicators that the carrying value of its investments in mineral properties may be impaired is a significant management judgment.

Why the matter is a key audit matter

We identified the evaluation of evidence of impairment for each of the mineral properties as a key audit matter. This matter represented an area of higher assessed risk of material misstatement, which required significant auditor judgment in the evaluation of the results of our procedures.

How the matter was addressed in the audit

The primary procedure we performed to address this key audit matter included the following:

We evaluated the appropriateness of the Group's impairment analysis by assessing the mineral properties for any indicators of impairment in accordance with IFRS 6.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

Management is responsible for other information. Other information comprises the information included in Management's Discussion and Analysis for the year ended December 31, 2025 and December 31, 2024 to be filed with the relevant Canadian Securities Commissions. Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon. In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact in the auditors' report. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS Accounting Standards as issued by the IASB and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so. Those charged with governance are responsible for overseeing the Group's financial reporting process.

Independent Auditor's Report

To the Shareholders of Plato Gold Corp. (Continued)

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but it is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As a part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as a fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude of the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Independent Auditor's Report

To the Shareholders of Plato Gold Corp. (Continued)

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (Continued)

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter, or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Edwin Leung

Plato Gold Corp.

Notes to the Consolidated Financial Statements
For the Year Ended December 31, 2025 and 2024
Stated in Canadian Dollars

1. Nature of Operations

Plato Gold Corp. (the “Company” or “Plato”) is an Ontario corporation formed by amalgamation on May 30, 2005. The primary offices are located at 1240 Bay Street, Suite 800, Toronto, Ontario M5R 2A7. The Company is listed on the TSX Venture Exchange (TSX-V: PGC), OTCQB Venture Market (OTCQB: NIOVF) and the Frankfurt Exchange (4Y7 OR WKN: A0M2QX).

The Company is a public gold and rare minerals exploration company with four projects. The first project, Good Hope Niobium Project consists of a total of 296 claims and covers an area of approximately 6,035 hectares in the Killala Lake Area and Cairngorm Lake Area Townships, northwest of Marathon, Ontario. The second project, the Pic River Platinum Group Metals (“PGM”) Project consists of a total of 111 Single Cell Mining Claims and covers an area of approximately 2,352 hectares in the Foxtrap Lake and Grain Township, Thunder Bay Mining District, in Ontario. The third project, the Lolita Project in Santa Cruz, Argentina, includes three adjoining concessions in Southern Argentina, which are held by the Company's 95% owned subsidiary, Winnipeg Minerals S.A. (“WMSA”). The fourth project, the Timmins Gold Project in Northern Ontario includes four properties (Guibord, Harker, Holloway and Marriott) in what is sometimes referred to as the Harker/Holloway gold camp located east of Timmins.

The Company is in the process of exploring its mineral properties and has not yet determined whether its properties contain economic mineral reserves. The recovery of amounts capitalized under mineral properties and deferred exploration costs is dependent upon the discovery of economically recoverable resources or reserves and upon future profitable production or sale of its interests, all of which are uncertain. Consequently, as of December 31, 2025, the Company considers itself to be an exploration and evaluation stage company with respect to these properties.

The Company has not yet realized profitable operations and has incurred significant losses to date resulting in a cumulative deficit of \$13,250,279 as at December 31, 2025. The Company's continued existence is dependent upon its ability to raise additional capital and/or obtaining financing from related parties and develop profitable operations. Management believes that it has the ability to raise the required additional funding. While management has been historically successful in raising the necessary capital, it cannot provide assurance that it will be able to execute on its business strategy or be successful in future financing activities. As at December 31, 2025, the Company's current liabilities exceed its current assets by \$3,182,020. Given the above, the Company has material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern.

2. Basis of Presentation and Going Concern

The Company's consolidated financial statements reflect the results of operations for the year ended December 31, 2025 and 2024, and the assets, liabilities and shareholders' equity as at December 31, 2025 and December 31, 2024.

The consolidated financial statements include the accounts of the Company and its 95% owned subsidiary, Winnipeg Minerals S.A., an Argentinean company. All significant intercompany balances and transactions have been eliminated on consolidation.

Plato Gold Corp.

Notes to the Consolidated Financial Statements
For the Year Ended December 31, 2025 and 2024
Stated in Canadian Dollars

2. Basis of Presentation and Going Concern (continued)

a) Statement of Compliance

The Company's consolidated financial statements have been prepared in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board ("IFRS Accounting Standards") effective as of December 31, 2025. The date that the Board of Directors approved the statements is April 22, 2026.

The material accounting policies (note 3) have been applied consistently to all periods presented in these consolidated financial statements.

b) Basis of Measurement

The Company's consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments which have been measured at fair value. In the opinion of management, all adjustments considered necessary for a fair presentation have been included.

c) Functional and Presentation Currency

Plato Gold Corp.'s functional currency is Canadian Dollars. Winnipeg Minerals S.A.'s ("WMSA") functional currency is US Dollars. The consolidated financial statements are presented in Canadian Dollars.

d) Critical judgments, estimates, and assumptions

The preparation of the consolidated financial statements in conformity with IFRS Accounting Standards requires management to make estimates and assumptions that affect assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of operations during the reporting period. Significant estimates and assumptions include those related to the following:

- the recoverability of the carrying value of the resource properties
- management's determination that there is no deferred tax asset recognized in these consolidated financial statements
- the ability to continue as a going concern
- the value of options and warrants issued by the Company

The application of Company's accounting policy for mineral properties and deferred exploration costs requires judgment to determine whether future economic benefits are probable, from either future development or sale. There is no assurance that the Company has or will have commercially viable resources.

While management believes that the estimates and assumptions are reasonable, actual results could differ from those estimates.

Plato Gold Corp.

Notes to the Consolidated Financial Statements
For the Year Ended December 31, 2025 and 2024
Stated in Canadian Dollars

2. Basis of Presentation and Going Concern (continued)

d) Critical judgments, estimates, and assumptions (continued)

Management has also used its judgment in determining that the functional currency of the Company is the Canadian dollar, the functional currency of the subsidiary is the US dollar, and the state of development of the mineral properties as the exploration stage.

e) Going Concern

The Company's ability to continue as a going concern is dependent upon, but not limited to, its ability to raise financing necessary to fund its exploration and development programs and general and administrative expenses, maintain its resource properties, discharge its liabilities as they become due and generate positive cash flows from operations. There is no certainty that the Company will be successful in raising financing given the current condition of the financial markets, and as such there is significant uncertainty the Company will be able to continue as a going concern.

During the year ended December 31, 2025 the Company had a net comprehensive loss of \$404,319 (2024 - \$215,021). As at December 31, 2025 the Company had a working capital deficiency of \$3,182,020 (2024 - \$1,366,094) and had an accumulated deficit of \$13,250,279 (2024 - \$12,869,441).

The consolidated financial statements are prepared on the basis of accounting principles applicable to a going concern, which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of the business. Accordingly, these consolidated financial statements do not give effect to adjustments that may be necessary, should the Company be unable to continue as a going concern. If the going concern assumption is not used, then the adjustments required to report the Company's assets and liabilities at liquidation values could be material to these consolidated financial statements.

3. Material Accounting Policies

The accounting policies the Company followed in preparing these consolidated financial statements have been applied consistently to all periods presented in these consolidated financial statements.

a) Foreign Currency Transactions

Effective January 1, 2025, WMSA's functional currency changed from Canadian Dollars to US Dollars. In determining the functional currency, management considered the currency that influences costs and the currency in which funds from financing activities were generated. Based on these indicators, management concluded that effective January 1, 2025, the functional currency of WMSA is US Dollars. The change in functional currency has been applied prospectively.

Plato Gold Corp.

Notes to the Consolidated Financial Statements
For the Year Ended December 31, 2025 and 2024
Stated in Canadian Dollars

3. Material Accounting Policies (continued)

a) Foreign Currency Transactions (continued)

These financial statements are translated to their Canadian Dollar equivalents using the following methods:

- Income and expenses on the statement of loss and comprehensive loss have been translated using the average exchange rates prevailing during the period;
- Assets and liabilities have been translated using the exchange rate prevailing at the date of the statement of financial position; and
- Translation adjustments are recognized in other comprehensive income or loss.

b) Mineral Properties and Deferred Exploration Costs

The Company records its mineral exploration expenditures at cost. Acquisition costs of resource properties together with direct exploration expenditures thereon are deferred in the accounts starting on the date of acquisition of the property rights. When production is attained, these costs will be amortized on a unit-of-production basis. If the properties are abandoned, sold or considered to be impaired in value, the costs of the properties and related deferred expenses will be written down at that time. When deferred expenditures on individual producing properties exceed the estimated recoverable amount, the properties are written down to the recoverable amount.

Exploration and evaluation expenditures include costs which are directly attributable to acquisition, surveying, geological, geochemical, geophysical, exploratory drilling, land maintenance, sampling and assessing technical feasibility and commercial viability. Management salaries directly related to exploration and evaluation expenditures are not capitalized. These expenditures are capitalized until the technical feasibility and commercial viability of the extraction of mineral reserves in a project is demonstrated. Amounts received from other parties to earn an interest in the Company's resource properties are applied as a reduction of the resource properties. During the exploration period, exploration and evaluation assets are not amortized.

All capitalized exploration and evaluation expenditures are monitored for indications of impairment, to ensure that commercial quantities of reserves exist or that exploration activities related to the property are continuing or planned for the future. If an exploration property does not prove viable, all unrecoverable costs associated with the project are expensed. Once a project is determined to be technically feasible and commercially viable and a decision has been made to proceed with development, the relevant exploration and evaluation asset is tested for impairment and the balance is reclassified as a mine development asset which is allocated between property, plant and equipment and intangible assets.

All subsequent expenditures to ready the property for production are capitalized within mine development assets, other than those costs related to the construction of property, plant and equipment. Once production has commenced, all costs included in mine development assets are reclassified to mining properties.

Plato Gold Corp.

Notes to the Consolidated Financial Statements
For the Year Ended December 31, 2025 and 2024
Stated in Canadian Dollars

3. Material Accounting Policies (continued)

b) Mineral Properties and Deferred Exploration Costs (continued)

Government rebates and option payments received related to exploration are reflected as a reduction of the cost of exploration.

The Company is in the process of exploring and evaluating its mineral properties and has not yet determined the amount of reserves available. On a quarterly basis in connection with quarterly reporting, senior management reviews the carrying amount of mineral properties and deferred exploration and development costs to assess whether there has been any indication of impairment in value.

c) Revenue Recognition

Revenue is recognized using a single control-based model (the “model”) that applies to contracts with customers and allows the Company to recognize revenue at a point in time or overtime. The model consists of a 5-step analysis of transactions to determine whether, how much, and when revenue is recognized.

Investment income is comprised of dividend and interest income. Interest income is recognized on an accrual basis and to the extent not received at year end, recorded as a receivable. Dividends are recognized as income on the ex-dividend date.

d) Income Taxes

The Company follows the asset and liability method of accounting for income taxes. Under this method, deferred income tax assets and liabilities are determined based on the differences between the carrying amount of assets and liabilities on the consolidated statement of financial position and their corresponding tax value, using the substantively enacted tax rates expected to apply when these temporary differences are reversed. Deferred income tax assets are recorded to recognize tax benefits only to the extent that, based on available evidence, it is probable that they will be realized. Income tax expense is recognized in the consolidated statement of loss and comprehensive loss except to the extent that it relates to a business combination, or items recognized directly in equity.

e) Share-Based Payments

The Company accounts for share-based payments to employees using the fair value method. Under this method, compensation expense is measured at fair value on the date of grant using the Black-Scholes option pricing model, and is recognized as an expense or capitalized, depending on the nature of the grant, with a corresponding increase in equity, over the period that the options are earned, after taking any expected forfeitures into account. The Black-Scholes option pricing model requires the input of subjective assumptions, including the expected term of the option and stock price volatility.

Plato Gold Corp.

Notes to the Consolidated Financial Statements
For the Year Ended December 31, 2025 and 2024
Stated in Canadian Dollars

3. Material Accounting Policies (continued)

e) Share-Based Payments (continued)

Common share purchase warrants, stock options and other equity instruments issued to parties other than employees and as purchase consideration in non-cash transactions are recorded at the fair value of the goods and services received, unless the fair value cannot be estimated reliably. If the fair value of the goods or services received cannot be reliably estimated, then the value is determined by management using the Black-Scholes option pricing model or for shares issued as purchase consideration for mineral property assets is based upon the trading price of those shares on the date that the consideration is transferred.

f) Equity and reserves

Share capital issued by the Company is recognized at the proceeds received, net of direct issuance costs. The Company applies the fair value method with respect to the measurement of shares and warrants issued as private placement units. The Company allocates the net proceeds based on the relative fair value assigned to each of the component, including issuance costs. The fair value of the warrants was determined using the Black-Scholes pricing model.

g) Decommissioning Liabilities

The Company's exploration activities are subject to various governmental laws and regulations relating to the protection of the environment. These environmental regulations are continually changing and becoming more restrictive. The fair value of an obligation to incur restoration, rehabilitation and environmental costs is to be recognized when incurred and the corresponding increase to the asset is amortized over the life of the asset. The liability is increased over time to reflect an accretion element considered in the initial measurement at fair value.

As at December 31, 2025 and 2024, the Company has not incurred and is not committed to any decommissioning obligations in respect of its mineral exploration properties.

h) Loss Per Share

Loss per share is computed by dividing the net loss for the year by the weighted average number of common shares outstanding during the year, including contingently issuable shares which are included when the conditions necessary for issuance have been met. Diluted loss per share is calculated in a similar manner, except that the weighted average number of common shares outstanding is increased to include potentially issuable common shares from the assumed exercise of dilutive options and warrants. There were no dilutive options and warrants outstanding during the year as the Company's average common share stock price during the year was below the exercise price of the outstanding warrants and options.

The number of additional shares included in the calculation is based on the weighted average number of shares that would be issued on the conversion of all potentially dilutive options into common shares.

The Company's weighted average share price is below option exercise prices as at December 31, 2025, therefore its options are anti-dilutive.

Plato Gold Corp.

3. Material Accounting Policies (continued)

i) Related Party Transactions

All transactions with related parties are in the normal course of business and are measured at the amount agreed to by the parties involved in the transactions.

j) Cash

Cash includes bank deposits and cash held in an investment portfolio. As at December 31, 2025 and 2024, the Company did not have any cash equivalents.

k) Financial Instruments

i. Classification and measurement of financial assets and financial liabilities

IFRS 9 requires financial assets to be classified into three measurement categories on initial recognition: fair value through profit and loss (“FVTPL”), fair value through other comprehensive income (“FVOCI”), and amortized cost. Investments in equity instruments are required to be measured by default at FVTPL. IFRS 9 permit entities to elect into an irrevocable option for equity instruments to report changes in fair value in other comprehensive income.

Classification and measurement of financial assets is dependent on the Company’s business model for managing the financial assets and related contractual cash flows.

The following table summarizes the impact on the classification of the Company’s financial assets and liabilities:

Asset/Liability	Classification under IFRS 9
Cash	Amortized cost
Other receivables	Amortized cost
Portfolio investments	FVTPL
Accounts payable and accrued liabilities	Amortized cost
Due to related company	Amortized cost
Promissory notes	Amortized cost

ii. Impairment

IFRS 9 has a three-stage expected credit loss (“ECL”) model for determining impairment of financial assets. The expected credit loss model does not require the occurrence of a triggering event before an entity recognizes credit losses. IFRS 9 requires the Company to recognize expected credit losses upon initial recognition of a financial asset and to update the quantum of expected credit losses at the end of each reporting period to reflect changes to credit risk of the financial asset.

Plato Gold Corp.

Notes to the Consolidated Financial Statements
For the Year Ended December 31, 2025 and 2024
Stated in Canadian Dollars

3. Material Accounting Policies (continued)

k) Financial Instruments (continued)

The Company's financial instruments measured at fair value on the consolidated statement of financial position consist of portfolio investments. Portfolio investments are measured at level 1 of the fair value hierarchy. There are three levels of the fair value hierarchy as follows:

Level 1: Values based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities.

Level 2: Values based on quoted prices in markets that are not active or model inputs that are observable either directly or indirectly for substantially the full term of the asset or liability.

Level 3: Values based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

Transaction costs are expensed as incurred for financial instruments and recorded on the statement of loss and comprehensive loss. For other financial instruments, transaction costs are capitalized on initial recognition.

l) New accounting standards issued but not yet effective

IFRS 18 Presentation and disclosure in financial statements ("IFRS 18")

In April 2024, the IASB issued IFRS 18 which replaces IAS 1. IFRS 18 introduces new requirements to improve the reporting of the financial performance and gives investors a better basis for analyzing and comparing companies.

Specifically it introduces:

- Three defined categories for income and expenses (operating, investing, and financing) and requiring companies to provide new defined subtotals, including operating profit;
- Enhancing transparency of management-defined performance measure requiring companies to disclose explanations of those company-specific measures related to the statement of income (loss) and comprehensive income (loss); and
- Enhancing guidance on how companies group information in the financial statements, including guidance on whether information is included in the financial statement or is included in the notes

IFRS 18 is effective for annual reporting period beginning on or after January 1, 2027, with early adoption permitted. The Company is assessing the potential impact of this new standard.

4. Other Receivables

As at December 31, 2025, other receivables includes HST receivable of \$615 (2024 - \$2,590) and non-current other receivables including Argentinian VAT and other amounts receivable from the government of \$208,863 (2024 - \$Nil). The carrying amount of the receivables approximates fair value.

5. Portfolio Investments

a) Bonterra Resources Inc.

During the year ended December 31, 2024, the Company sold its investment in Bonterra Resources Inc. and recognized a realized loss of \$21,274.

b) Monarch Mining Corporation

During the year ended December 31, 2024, Monarch Mining Corporation ceased trading as it was placed under protection of Companies' Creditors Arrangement Act ("CCAA"). The Corporation wrote off their investment in Monarch Mining Corporation and recognized a realized loss of \$8,236.

As at December 31, 2025, the Company holds 11,600 (2024 - 11,600) common shares of Monarch Mining Corporation, with a fair value of \$Nil (2024 - \$Nil).

c) Pan American Silver Corp.

During the year ended December 31, 2024, the company sold its investments in Pan American Silver Corp. and recognized a realized gain of \$2,068.

d) Agnico Eagle Mines Limited

During the year ended December 31, 2024, the company sold 724 shares of Agnico Eagle Mines Limited and recognized a realized gain of \$72,377.

During the year ended December 31, 2025, the company sold 150 shares of Agnico Eagle Mines Limited and recognized a realized gain of \$18,267.

As at December 31, 2025, the Company holds Nil (2024 - 150) common shares of Aginco Eagle Mines Limited, with a fair value of \$Nil (2024 - \$16,869).

The Company classifies all portfolio investments as Level 1 under the fair value hierarchy. There were no transfers between fair value levels during the year ended December 31, 2025.

a) Good Hope Niobium Project

On May 31, 2017, the Company signed two Option Agreements, KL226 Option Agreement and KL37 Option Agreement to acquire 100% interest in the Good Hope Niobium Project in the Killala Lake area, near Marathon Ontario.

Plato Gold Corp.

Notes to the Consolidated Financial Statements
For the Year Ended December 31, 2025 and 2024
Stated in Canadian Dollars

6. Mineral Properties and Deferred Exploration Costs (continued)

a) Good Hope Niobium Project (continued)

The Good Hope Niobium Property consists of a total of 254 claims, consisting of 227 Single Cell Mining Claims and 27 Boundary Cell Mining Claims, and covers an area of approximately 5,146 hectares in the Killala Lake Area and Cairngorm Lake Area Townships, northwest of Marathon, Ontario. The Good Hope Property is located approximately 45 kilometers northwest of Marathon and 28 km north of Highway 17. The property is readily accessible from Trans-Canada Highway 17 and Dead Horse Road. The Property is also in close proximity to the Hemlo gold mining camp.

On August 27, 2019, the Company announced that it had met all of the terms of the KL37 and KL226 Option Agreements and the Company owns 100% of the Good Hope Niobium claims.

The following terms remain for the KL226 and KL37 Option Agreements:

- i) A 3% Net Smelter Return Royalty to Optionors, with first right of refusal for 50% buy back for \$1,500,000.
- ii) A 3% Gross Overriding Royalty from the production of diamonds only to Optionors, with first right of refusal for 50% buy back for \$1,500,000.
- iii) Performance Shares of 1,000,000 common shares to Optionors, if a NI 43-101 compliant resource exceeding 100 million tonnes of Nb205/P205 and an additional 2,000,000 common shares to Optionors, upon a positive bankable feasibility study.
- iv) 10% of the sale price or option price in cash or shares to Optionors, if the KL226 or KL37 claims are sold or optioned to a third party.

On July 8, 2024, the Company announced a binding agreement with Rudolf Wahl and Mike Dorval (the “Wahl Group”) to acquire a 100% interest in 42 unpatented cell claims in Killala Lake Area Townships, known as the Ruffle Lake Property. The Claims are contiguous to the Company’s Good Hope Niobium Project.

The Company acquired the 100% interest in the claims with a payment of \$20,000 and issued 2,000,000 common shares. The Wahl Group retains a 3.0% net smelter return royalty for all commercial production on claims. The Company retains the right to repurchase 2.5% of the net smelter return royalty at any time for \$2,000,000.

b) Pic River Project

On January 28, 2020, the Company entered into an Option Agreement to acquire 100% interest in the Pic River PGM Project in Foxtrap Lake and Grain Township, Thunder Bay Mining District, in Ontario. The Optionors are Rudolf Wahl (70%) and Mike Dorval (30%). On April 28, 2020, the Option Agreement was amended with an additional 6 new claims to the total property.

The Pic River PGM Project consists of a total of 111 Single Cell Mining Claims and covers an area of approximately 2,247 hectares in the Foxtrap Lake and Grain Township, Thunder Bay Mining District, in Ontario.

6. Mineral Properties and Deferred Exploration Costs (continued)

b) Pic River Project (continued)

The Company, as the Optionee, will earn in for 100% interest in the project claims upon completion of the following:

i) Total cash payment of \$125,000 as follows:

- i) \$10,000 to Optionors within 7 days of signing of the Pic River PGM Option Agreement
- ii) \$15,000 to Optionors within 6 months of the TSXV approval
- iii) \$25,000 to the Optionors on or before the 1st, 2nd, 3rd and 4th anniversary of the TSXV approval

ii) Total payment of 1,650,000 common shares

- i) 300,000 common shares to Optionors within 15 days of TSXV approval
- ii) 450,000 common shares to Optionors on or before the 1st anniversary of the TSXV approval
- iii) 300,000 common shares to the Optionors on or before the, 2nd, 3rd and 4th anniversary of the TSXV approval

iii) Combined exploration expenditures of \$160,000

- i) \$40,000 on or before the 1st anniversary of the TSXV approval
- ii) \$120,000 on or before the 4th anniversary of the TSXV approval

On January 20, 2021, the Option agreement was amended such that the Company is only required to incur total exploration expenditures of \$160,000 on or before the 4th anniversary of the TSXV approval. All other terms of the Option Agreement remain unchanged.

In addition, the Pic River PGM Option Agreement includes:

- i) A 3% Net Smelter Return royalty to Optionors, with the first right of refusal for 50% buy back for \$1,500,000.
- ii) A 3% Gross Overriding royalty from the production of diamonds only to Optionors, with first right of refusal for 50% buy back for \$1,500,000.
- iii) Performance Shares of 1,000,000 common shares to Optionors, if a NI 43-101 compliant resource exceeding 1 million ounces of platinum equivalent, and an additional 1,000,000 common shares to Optionors, upon a positive bankable feasibility study.
- iv) 10% of the sale price or option price in cash or shares to Optionors, if the Pic River PGM Project claims are sold or optioned to a third party.

Plato Gold Corp.

Notes to the Consolidated Financial Statements

Stated in Canadian Dollars

6. Mineral Properties and Deferred Exploration Costs (continued)

b) Pic River Project (continued)

On January 28, 2020, the Company issued 300,000 common shares and cash payment of \$10,000 to the Optionors pursuant to the agreement. On June 22, 2020, the Company paid a cash payment of \$15,000 to the Optionors pursuant to the agreement.

On January 20, 2021, the Company issued 450,000 common shares and cash payment of \$25,000 to the Optionors pursuant to the agreement.

On January 10, 2022, the Company issued 300,000 common shares and cash payment of \$25,000 to the Optionors pursuant to the agreement.

On January 10, 2023, the Company issued 300,000 common shares and cash payment of \$25,000 to the Optionors pursuant to the agreement.

On January 18, 2024, the Company made the final payment and issued 300,000 common shares and cash payment of \$25,000 to the Optionors pursuant to the agreement.

The Company has met the terms of the Option Agreement and owns 100% of the Pic River PGM Project claims.

c) Lolita Project

On August 27, 2007, the Company entered into an agreement to acquire a 75% interest in the Lolita Property in Argentina.

Upon completion of the initial expenditures, a Joint Work Program for up to US\$500,000 was jointly developed and financed 75% by the Company and 25% by the other party ("Lhotka"). The agreement allows that Lhotka shall have its Joint Venture interest in the property diluted by 5% for each US\$100,000 in expenditures spent by the Company, if Lhotka declines its portion of the expenditure. Lhotka's interest in the property shall not be reduced to less than 2%, unless otherwise agreed by the parties, and Lhotka is entitled to receive a 2% Net Smelter Royalty ("NSR"). The Company has available an option to purchase the NSR for US\$500,000.

With the completion of the initial expenditures, registration of ownership of the property proceeded in accordance with the Joint Venture Agreement. As of August 9, 2011, Winnipeg Minerals S.A. ("WMSA") was incorporated in Argentina with the Company holding 75% and Lhotka holding 25% of the outstanding shares. The mineral claims were subsequently transferred to WMSA as of November 14, 2011.

On August 31, 2020, in accordance with the joint venture agreement, the Company recorded cumulative expenditures above \$400,000 and thus the parties agreed to dilute the Lhotka interest by 20%. Accordingly, the Lhotka contribution outstanding after the incorporation of WMSA will be recorded as settled in full. As well, the Company's holding in WMSA increased to 95%. Accordingly, as of August 31, 2020, Lhotka's outstanding contribution is \$Nil.

Plato Gold Corp.

Notes to the Consolidated Financial Statements
For the Year Ended December 31, 2025 and 2024
Stated in Canadian Dollars

6. Mineral Properties and Deferred Exploration Costs (continued)

c) Lolita Project (continued)

Effective September 1, 2020, the allocation of expenditures will be based on the 95% interest for the Company and 5% for Lhotka until cumulative expenditures exceed \$500,000.

As of December 31, 2025, the cumulative loan to WMSA and expenses incurred by the Company after the incorporation of WMSA totals \$1,851,298 (2024 - \$285,065) with Plato accounting for \$1,765,569 (2024 - \$277,648) and Lhotka \$85,729 (2024 - \$7,418).

As at December 31, 2025, \$84,867 is receivable from Lhotka on a standalone unconsolidated basis. Once the Company has received this amount from Lhotka, \$78,775 of the intercompany loan receivable from WMSA, which is eliminated on consolidation, will be payable by WMSA to Lhotka. On the consolidated statement of financial position, the receivable from Lhotka is presented on a net basis under other receivables with a balance of \$6,092 as at December 31, 2025.

The option agreement, including the amendment, was in good standing as of December 31, 2025 and there are no breaches of any covenants, terms or conditions in respect thereof.

Pursuant to an impairment analysis performed on the Company's Lolita property as at December 31, 2015, the Company decided to write down the carrying value of the property totaling \$321,275 to \$Nil. The Company's interest in the Lolita project remained unchanged for the year ended December 31, 2024, the Company has determined not to substantiate the carrying value of the properties until there are expenditures by the Company on exploration and evaluation of mineral resources for this property. As of December 31, 2024, the Company had incurred and written down \$418,613 of project related costs.

During the year ended December 31, 2025, the Company incurred expenditures of \$1,211,096 for the Lolita property which are capitalized as mineral properties and deferred exploration costs on the statement of financial position. As at December 31, 2025, total expenditures on the Lolita property totals to \$1,629,709 (2024 - \$418,613).

d) Timmins Gold Project

The Timmins Gold Project is comprised of four properties along the DestorPorcupine Fault Zone located east of Timmins. The properties are comprised of 4 leases and 142 claims. The Company holds 100% interest in the Holloway and Marriott Properties. The Company holds 50% interest in the Guibord property with the remaining 50% held by Osisko, of which 10% is beneficially held for Kirland Lake. The Company holds 20% interest in the Harker property with the remaining 80% held by Osisko. The properties are subject to a 2% net smelter royalty held by a former director of the Company.

Plato Gold Corp.

Notes to the Consolidated Financial Statements
For the Year Ended December 31, 2025 and 2024
Stated in Canadian Dollars

6. Mineral Properties and Deferred Exploration Costs (continued)

d) Timmins Gold Project (continued)

Pursuant to an impairment analysis performed on the Company's Timmins property as at December 31, 2015, the Company decided to write down the carrying value of the property at December 31, 2015 totaling \$1,010,246 to \$Nil. While the Company's interest in the Timmins project remains unchanged for the year ended December 31, 2025, the Company has determined not to substantiate the carrying value of the properties until there are expenditures by the Company on exploration and evaluation of mineral resources for this property. Accordingly, all costs incurred to date were written off as an impairment loss. Should a valuation analysis be performed in the future such that the estimated recoverable amount of the Timmins property is greater than the carrying amount of \$Nil, the impairment losses recognized in prior years could reverse in part, or in full. In this situation, the carrying amount could be increased to an amount that does not exceed the original carrying amount that would have been determined had no impairment loss been recognized for the Timmins property in prior years. As of December 31, 2025, the Company has incurred and written down \$1,381,488 (2024 - \$1,377,441) of project related costs.

Subsequent to the year ended December 31, 2025, the Company entered into a definitive asset purchase agreement (the "Agreement") for the sale of interests in the Timmins Properties. The Agreement, dated April 1, 2026, includes the sale of the Company's 50% interest in the Guibord Property, 100% interest in the Marriot Property, and 100% interest in the Holloway Property for total cash considerations of \$2,500,000.

The transaction is subject to customary conditions precedent, including receipt of all required regulatory approvals and ministerial consent with respect to the transfer of certain mining leases. On closing, the cash consideration will be paid into escrow and released to the Company in stages as follows:

- 50% upon completion of the transfer of the Marriott Property;
- 25% upon completion of the transfer of the Holloway Property; and
- 25% upon completion of the transfer of the Guibord Property.

The transaction constitutes a Reviewable Disposition under the policies of the TSX Venture Exchange and remains subject to Exchange acceptance. There can be no assurance that the transaction will be completed as proposed or at all.

Since the Agreement was entered into subsequent to December 31, 2025, the impairment on the Timmins Properties remains unchanged as of December 31, 2025 and the carrying value of the Timmins Properties remains \$Nil as of December 31, 2025.

7. Due to Related Company

As at December 31, 2025, the Company owes \$663,169 (2024 - \$510,569) to a related company. Amounts due to the related company are non-interest bearing, unsecured and due on demand. The Company and the related company have a director in common. This director is also a shareholder and an officer of both companies.

8. Promissory Notes

During the year ended December 31, 2025, the Company issued two promissory notes. The promissory notes are unsecured, bear interest at 7% per annum and payable on June 10, 2026. As at December 31, 2025, the principal balance outstanding on the promissory notes is \$1,567,550 and the accrued interest is \$67,401. The accrued interest on the promissory notes is recorded under accounts payable and accrued liabilities.

One of the promissory notes is issued to a related corporation. The Company and the related corporation have a director in common. This director is also a shareholder and an officer of both companies. As at December 31, 2025, the principal balance owed to the related corporation under the promissory note is \$1,498,500 and the accrued interest is \$64,064.

9. Share Capital

a) Authorized

The Company is authorized to issue an unlimited number of common shares with no par value. The Company is authorized to issue an unlimited number of preferred shares with par value, of which none have been issued.

b) Common Shares Issued and Outstanding

	<u>Number</u>	<u>Amount</u>
Balance - January 1, 2024	228,365,717	\$ 10,028,348
Issued for:

10. Warrants

- a) A summary of the status of the Company's warrants is as follows:

	<u>Number</u>	<u>Amount</u>	<u>Weighted Average Exercise Price</u>
Balance - January 1, 2024	3,100,000	\$ 63,580	\$ 0.07
Expiry - July 6, 2024	(3,100,000)	\$(63,580)	0.07
Balance - December 31, 2024 and December 31, 2025	<u>-</u>	<u>\$ -</u>	<u>\$ -</u>

During the year ended December 31, 2024, 3,100,000 warrants expired unexercised.

11. Share-Based Compensation

- a) Stock Option Plan

The Board of Directors has adopted a stock option plan for the Company (the "Plan"). Pursuant to the Plan, the Board of Directors may, from time to time at its discretion, allocate non-transferable options to purchase shares to directors, officers, employees and consultants of the Company. Under the Plan, the aggregate number of shares to be issued upon the exercise of options granted thereunder may not exceed 10% of the number of issued and outstanding shares at the time of granting the options. Options shall expire no later than ten years after the date of grant.

The exercise price of options granted pursuant to the Plan shall be established based on the average closing price of the shares for the five days prior to the date of grant or such other method of pricing as may be acceptable to the stock exchange on which the shares are listed. The options shall vest and may be exercised as determined by a resolution of the Board of Directors.

- b) A summary of changes to stock options is as follows:

	<u>Number</u>	<u>Weighted Average Exercise Price</u>
Balance - January 1, 2024 and December 31, 2024	16,980,000	\$ 0.085
Expired (i)	(1,150,000)	(0.100)
Balance - December 31, 2025	<u>15,830,000</u>	<u>\$ 0.084</u>

All outstanding options have fully vested and are exercisable. During the year ended December 31, 2025, 1,150,000 options granted to a prior director expired unexercised.

13. Related Party Transactions

During the year ended December 31, 2025, the Company:

- Incurred rent of \$2,400 (2024 - \$2,400) with a related company. The Company and the related company have an officer in common. This officer is also a director and shareholder of both companies. As at December 31, 2025, accounts payable and accrued liabilities included \$25,800 (2024 - \$23,400) related to rent payable.
- Incurred consulting fees of \$100 (2024 - \$100) with the Company's CFO. As at December 31, 2025, accounts payable and accrued liabilities included \$72,000 (2024 - \$72,000) of consulting fees payable to the CFO.
- Incurred consulting fees of \$100 (2024 - \$100) with the Company's current Corporate Secretary.
- Incurred salaries of \$100 (2024 - \$100) with the Company's CEO.
- Incurred directors fees of \$500 (2024 - \$450).
- Other related party transaction information is disclosed in notes 7 and 8.

14. Management Compensation

Key management includes all directors (management and non-management directors) and the Chief Financial Officer. The Chief Executive Officer is a management director. The compensation paid or payable to key management for services is shown below:

	<u>2025</u>	<u>2024</u>
Salaries and consulting fees	\$ 300	\$ 300
Directors fees	500	450
	<u>\$ 800</u>	<u>\$ 750</u>

Accounts payable and accrued liabilities as at December 31, 2025 includes \$Nil (2024 - \$58,300) payable to these parties.

15. Financial Instruments

a) Liquidity Risk

Liquidity risk refers to the risk that the Company will not be able to meet its financial obligations when they become due. The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities as they become due. As at December 31, 2025, the Company had current assets of \$34,391 (2024 - \$48,193) to settle current liabilities of \$3,216,411 (2024 - \$1,414,287). With the exception of promissory notes, all of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms.

The Company has no income and relies on debt and equity financing to support its exploration program. Additional financing is required to fund the related operating expenses required to manage the Company through fiscal 2026. Management prepares budgets and ensures funds are available prior to commencement of any exploration program. During the year ended December 31, 2025, the Company received the majority of its financing from advances from related parties and promissory notes.

15. Financial Instruments (continued)

b) Market Risk

Market risk is the risk of loss that may arise from changes in market factors such as foreign exchange rates, interest rates and equity prices.

(i) Foreign Exchange Risk

The Company is exposed to financial risk related to foreign exchange rates. The Company operates in Canada and Argentina. A significant change in the currency exchange rates between the Canadian dollar and Argentinean peso could have an effect on the Company's results of operations.

At December 31, 2025, the Company is exposed to currency risk through Argentinean cash expressed in Canadian dollars of \$9,606 (2024 - \$19,481). A 10% depreciation or appreciation of the Canadian dollar against the Argentinean peso would result in an increase/decrease of approximately \$961 (2024 - \$1,948) the Company's consolidated statement of loss and comprehensive loss.

(ii) Equity Price Risk

The Company is exposed to price risk with respect to equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. The Company's portfolio investments are subject to fair value fluctuations arising from changes in the equity market. As at December 31, 2025, should the equity prices of the Company's holdings increase or decrease by 5%, the impact on net loss and comprehensive loss would be approximately \$Nil (2024 - \$483).

(iii) Interest Rate Risk

The Company has promissory notes with fixed interest rates and as a result, fluctuations in interest rates does not have a significant impact on the Company as at December 31, 2025. The Company is subject to fair value risk on its fixed rate promissory notes.

16. Capital Disclosures

The Company's objective when managing capital is to raise sufficient funds to execute its exploration plan. As at December 31, 2025, the Company's capital consists of shareholders' equity in the amount of \$702,982 (2024 - \$1,107,301).

The properties in which the Company currently has an interest are in the exploration stage; as such, the Company is dependent on external financing to fund its activities. In order to carry out the planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed.

Plato Gold Corp.

Notes to the Consolidated Financial Statements
For the Year Ended December 31, 2025 and 2024
Stated in Canadian Dollars

16. Capital Disclosures (continued)

The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. Although the Company has been successful at raising funds in the past through the issuance of share capital, it is uncertain whether it will be able to continue this financing due to the uncertain economic conditions. The Company believes that it will be able to raise sufficient funds from share issuance to fund its operations for the coming year. The Company does not have any externally imposed capital requirements. There were no changes in the Company's approach to capital management during the year ended December 31, 2025.

17. Subsequent Event

Subsequent to the year ended December 31, 2025, the Company entered into a definitive asset purchase agreement for the sale of interests in Timmins Properties. On April 16, 2026, the Company announced the closing of the sale of the Timmins area property to Mayfair Gold Corp. See note 6(d) for additional information.
