1. Nature of Operations

Plato Gold Corp. (the “Company” or "Plato") is an Ontario corporation formed by amalgamation on May 30, 2005. The primary offices are located at 1240 Bay Street, Suite 800, Toronto, Ontario M5R 2A7. The Company is listed on the TSX Venture Exchange (TSX-V: PGC), OTCQB Venture Market (OTCQB: NIOVF) and the Frankfurt Exchange (4Y7 OR WKN: A0M2QX).

The Company is a public gold and rare minerals exploration company with four projects. The first project, Good Hope Niobium Project consists of a total of 296 claims and covers an area of approximately 6,035 hectares in the Killala Lake Area and Cairngorm Lake Area Townships, northwest of Marathon, Ontario. The second project, the Pic River Platinum Group Metals ("PGM") Project consists of a total of 111 Single Cell Mining Claims and covers an area of approximately 2,352 hectares in the Foxtrap Lake and Grain Township, Thunder Bay Mining District, in Ontario. The third project, the Lolita Project in Santa Cruz, Argentina, includes three adjoining concessions in Southern Argentina, which are held by the Company's 95% owned subsidiary, Winnipeg Minerals S.A. ("WMSA"). The fourth project, the Timmins Gold Project in Northern Ontario, historically included the Guibord, Harker, Holloway, and Marriott properties east of Timmins. During the period ended June 30, 2026, the Company sold its 50% interest in Guibord, and its 100% interests in Marriott and Holloway to Mayfair Gold Corp. The Company retained its 20% interest in the Harker property.

The Company is in the process of exploring its mineral properties and has not yet determined whether its properties contain economic mineral reserves. The recovery of amounts capitalized under mineral properties and deferred exploration costs is dependent upon the discovery of economically recoverable resources or reserves and upon future profitable production or sale of its interests, all of which are uncertain. Consequently, as of June 30, 2026, the Company considers itself to be an exploration and evaluation stage company with respect to these properties.

The Company has not yet realized profitable operations and has incurred significant losses to date resulting in a cumulative deficit of $11,289,701 as at June 30, 2026. The Company’s continued existence is dependent upon its ability to raise additional capital and/or obtaining financing from related parties and to develop profitable operations. Management believes that it has the ability to raise the required additional funding. While management has been historically successful in raising the necessary capital, it cannot provide assurance that it will be able to execute on its business strategy or be successful in future financing activities. As at June 30, 2026, the Company's current liabilities exceed its current assets by $3,275,170. Given the above, the Company has material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern.

2. Basis of Presentation and Going Concern

The Company's condensed interim consolidated financial statements reflect the results of operations for the periods ended June 30, 2026 and 2025, and the assets, liabilities and shareholders' equity as at June 30, 2026 and December 31, 2025.

The condensed interim consolidated financial statements include the accounts of the Company and its 95% owned subsidiary, Winnipeg Minerals S.A., an Argentinean company. All significant intercompany balances and transactions have been eliminated on consolidation.

2. Basis of Presentation and Going Concern (continued)

a) Statement of Compliance

The Company's condensed interim consolidated financial statements have been prepared in accordance with IAS 34, Interim Financial Reporting ("IAS 34"). The IAS 34 interim financial statements do not include all of the information required for annual financial statements.

As stated in the Company's news release dated May 26, 2026, the Company has adopted semi-annual financial reporting in accordance with Coordinated Blanket Order 51-933 - Exemptions to Permit Semi-Annual Reporting for Certain Venture Issuers, issued by the Canadian Securities Administrators (the "Blanket Order"). In accordance with the Blanket Order, the Company is exempt from including a statement of income (loss) and comprehensive income (loss) for the three months ended June 30, 2026, and the comparative financial information for the corresponding three months ended June 30, 2025.

These condensed interim consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2025.

The Company's consolidated financial statements have been prepared in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board ("IFRS Accounting Standards") effective as of June 30, 2026. The date that the Board of Directors approved the statements is August 19, 2026.

The material accounting policies (note 3) have been applied consistently to all periods presented in these condensed interim consolidated financial statements.

b) Basis of Measurement

The Company's condensed interim consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments which have been measured at fair value. In the opinion of management, all adjustments considered necessary for a fair presentation have been included.

c) Functional and Presentation Currency

Plato Gold Corp.'s functional currency is Canadian Dollars. Winnipeg Minerals S.A.'s ("WMSA") functional currency is US Dollars. The condensed interim consolidated financial statements are presented in Canadian Dollars.

d) Critical judgments, estimates, and assumptions

The preparation of the condensed interim consolidated financial statements in conformity with IFRS Accounting Standards requires management to make estimates and assumptions that affect assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of operations during the reporting period. Significant estimates and assumptions include those related to the following:

2. Basis of Presentation and Going Concern (continued)

d) Critical judgments, estimates, and assumptions (continued)

- the recoverability of the carrying value of the resource properties
- management's determination that there is no deferred tax asset recognized in these consolidated financial statements
- the ability to continue as a going concern
- the value of options and warrants issued by the Company

The application of the Company's accounting policy for mineral properties and deferred exploration costs requires judgment to determine whether future economic benefits are probable, from either future development or sale. There is no assurance that the Company has or will have commercially viable resources.

While management believes that the estimates and assumptions are reasonable, actual results could differ from those estimates.

Management has also used its judgment in determining that the functional currency of the Company is the Canadian dollar, the functional currency of the subsidiary is the US dollar, and the state of development of the mineral properties as the exploration stage.

e) Going Concern

The Company's ability to continue as a going concern is dependent upon, but not limited to, its ability to raise financing necessary to fund its exploration and development programs and general and administrative expenses, maintain its resource properties, discharge its liabilities as they become due and generate positive cash flows from operations. There is no certainty that the Company will be successful in raising financing given the current condition of the financial markets, and as such there is significant uncertainty the Company will be able to continue as a going concern.

During the period ended June 30, 2026 the Company had a net comprehensive income of $1,967,150 (2025 - net comprehensive loss of $1,195,228). As at June 30, 2026 the Company had a working capital deficiency of $3,275,170 (December 31, 2025 - $3,182,020) and had an accumulated deficit of $11,289,701 (December 31, 2025 - $13,250,279).

The condensed interim consolidated financial statements are prepared on the basis of accounting principles applicable to a going concern, which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of the business. Accordingly, these condensed interim consolidated financial statements do not give effect to adjustments that may be necessary, should the Company be unable to continue as a going concern. If the going concern assumption is not used, then the adjustments required to report the Company's assets and liabilities at liquidation values could be material to these condensed interim consolidated financial statements.

3. Material Accounting Policies

The Company's complete accounting policies have been included in the consolidated financial statements for the year ended December 31, 2025. The accounting policies the Company followed in preparing these condensed interim consolidated financial statements were the same as those applied by the Company in the annual consolidated financial statements as at and for the year ended December 31, 2025.

4. Other Receivables

As at June 30, 2026, other receivables include an HST receivable of $10,470 (December 31, 2025 - $615). Non-current other receivables include Argentinian VAT and other amounts receivable from the government of $213,738 (December 31, 2025 - $208,863). The carrying amount of the receivables approximates fair value.

5. Portfolio Investments

a) Agnico Eagle Mines Limited

During the year ended December 31, 2025, the Company sold 150 shares of Agnico Eagle Mines Limited and recognized a realized gain of $18,267.

As at June 30, 2026, the Company holds Nil (December 31, 2025 - Nil) common shares of Agnico Eagle Mines Limited, with a fair value of $Nil (December 31, 2025 - $Nil).

b) Enbridge Inc.

During the period ended June 30, 2026, the Company purchased 26,000 common shares of Enbridge Inc.

As at June 30, 2026, the Company holds 26,000 common shares of Enbridge Inc., with a fair value of $1,999,660.

The Company classifies all portfolio investments as Level 1 under the fair value hierarchy. There were no transfers between fair value levels during the period ended June 30, 2026.

a) Good Hope Niobium Project

On May 31, 2017, the Company signed two Option Agreements, KL226 Option Agreement and KL37 Option Agreement to acquire 100% interest in the Good Hope Niobium Project in the Killala Lake area, near Marathon Ontario.

6. Mineral Properties and Deferred Exploration Costs (continued)

a) Good Hope Niobium Project (continued)

The Good Hope Niobium Property consists of a total of 296 cell claims and covers an area of approximately 6,035 hectares in the Killala Lake Area and Cairngorm Lake Area Townships, northwest of Marathon, Ontario. The Good Hope Property is located approximately 45 kilometers northwest of Marathon and 28 km north of Highway 17. The property is readily accessible from Trans-Canada Highway 17 and Dead Horse Road. The Property is also in close proximity to the Hemlo gold mining camp.

On August 27, 2019, the Company announced that it had met all of the terms of the KL37 and KL226 Option Agreements and the Company owns 100% of the Good Hope Niobium claims.

The following terms remain for the KL226 and KL37 Option Agreements:

i) A 3% Net Smelter Return Royalty to Optionors, with first right of refusal for 50% buy back for $1,500,000.
ii) A 3% Gross Overriding Royalty from the production of diamonds only to Optionors, with first right of refusal for 50% buy back for $1,500,000.
iii) Performance Shares of 1,000,000 common shares to Optionors, if a NI 43-101 compliant resource exceeding 100 million tonnes of Nb205/P205 and an additional 2,000,000 common shares to Optionors, upon a positive bankable feasibility study.
iv) 10% of the sale price or option price in cash or shares to Optionors, if the KL226 or KL37 claims are sold or optioned to a third party.

On July 8, 2024, the Company announced a binding agreement with Rudolf Wahl and Mike Dorval (the "Wahl Group") to acquire a 100% interest in 42 unpatented cell claims in Killala Lake Area Townships, known as the Ruffle Lake Property. The Claims are contiguous to the Company's Good Hope Niobium Project.

The Company acquired the 100% interest in the claims with a payment of $20,000 and issued 2,000,000 common shares. The Wahl Group retains a 3.0% net smelter return royalty for all commercial production on claims. The Company retains the right to repurchase 2.5% of the net smelter return royalty at any time for $2,000,000.

b) Pic River Project

On January 28, 2020, the Company entered into an Option Agreement to acquire 100% interest in the Pic River PGM Project in Foxtrap Lake and Grain Township, Thunder Bay Mining District, in Ontario. The Optionors are Rudolf Wahl (70%) and Mike Dorval (30%). On April 28, 2020, the Option Agreement was amended with an additional 6 new claims to the total property.

The Pic River PGM Project consists of a total of 111 Single Cell Mining Claims and covers an area of approximately 2,352 hectares in the Foxtrap Lake and Grain Township, Thunder Bay Mining District, in Ontario.

6. Mineral Properties and Deferred Exploration Costs (continued)

b) Pic River Project (continued)

The Company, as the Optionee, will earn 100% interest in the project claims upon completion of the following:

i) Total cash payment of $125,000 as follows:

i) $10,000 to Optionors within 7 days of signing of the Pic River PGM Option Agreement
ii) $15,000 to Optionors within 6 months of the TSXV approval
iii) $25,000 to the Optionors on or before the 1st, 2nd, 3rd and 4th anniversary of the TSXV approval

ii) Total payment of 1,650,000 common shares

i) 300,000 common shares to Optionors within 15 days of TSXV approval
ii) 450,000 common shares to Optionors on or before the 1st anniversary of the TSXV approval
iii) 300,000 common shares to the Optionors on or before the, 2nd, 3rd and 4th anniversary of the TSXV approval

iii) Combined exploration expenditures of $160,000

i) $40,000 on or before the 1st anniversary of the TSXV approval
ii) $120,000 on or before the 4th anniversary of the TSXV approval

On January 20, 2021, the Option agreement was amended such that the Company is only required to incur total exploration expenditures of $160,000 on or before the 4th anniversary of the TSXV approval. All other terms of the Option Agreement remain unchanged.

In addition, the Pic River PGM Option Agreement includes:

i) A 3% Net Smelter Return royalty to Optionors, with the first right of refusal for 50% buy back for $1,500,000.

ii) A 3% Gross Overriding royalty from the production of diamonds only to Optionors, with first right of refusal for 50% buy back for $1,500,000.

iii) Performance Shares of 1,000,000 common shares to Optionors, if a NI 43-101 compliant resource exceeding 1 million ounces of platinum equivalent, and an additional 1,000,000 common shares to Optionors, upon a positive bankable feasibility study.

iv) 10% of the sale price or option price in cash or shares to Optionors, if the Pic River PGM Project claims are sold or optioned to a third party.

6. Mineral Properties and Deferred Exploration Costs (continued)

b) Pic River Project (continued)

On January 28, 2020, the Company issued 300,000 common shares and cash payment of $10,000 to the Optionors pursuant to the agreement. On June 22, 2020, the Company paid a cash payment of $15,000 to the Optionors pursuant to the agreement.

On January 20, 2021, the Company issued 450,000 common shares and cash payment of $25,000 to the Optionors pursuant to the agreement.

On January 10, 2022, the Company issued 300,000 common shares and cash payment of $25,000 to the Optionors pursuant to the agreement.

On January 10, 2023, the Company issued 300,000 common shares and cash payment of $25,000 to the Optionors pursuant to the agreement.

On January 18, 2024, the Company made the final payment and issued 300,000 common shares and cash payment of $25,000 to the Optionors pursuant to the agreement.

The Company has met the terms of the Option Agreement and owns 100% of the Pic River PGM Project claims.

c) Lolita Project

On August 27, 2007, the Company entered into an agreement to acquire a 75% interest in the Lolita Property in Argentina.

Upon completion of the initial expenditures, a Joint Work Program for up to US$500,000 was jointly developed and financed 75% by the Company and 25% by the other party ("Lhotka"). The agreement allows that Lhotka shall have its Joint Venture interest in the property diluted by 5% for each US$100,000 in expenditures spent by the Company, if Lhotka declines its portion of the expenditure. Lhotka's interest in the property shall not be reduced to less than 2%, unless otherwise agreed by the parties, and Lhotka is entitled to receive a 2% Net Smelter Royalty ("NSR"). The Company has available an option to purchase the NSR for US$500,000.

With the completion of the initial expenditures, registration of ownership of the property proceeded in accordance with the Joint Venture Agreement. As of August 9, 2011, Winnipeg Minerals S.A. ("WMSA") was incorporated in Argentina with the Company holding 75% and Lhotka holding 25% of the outstanding shares. The mineral claims were subsequently transferred to WMSA as of November 14, 2011.

On August 31, 2020, in accordance with the joint venture agreement, the Company recorded cumulative expenditures above $400,000 and thus the parties agreed to dilute the Lhotka interest by 20%. Accordingly, the Lhotka contribution outstanding after the incorporation of WMSA will be recorded as settled in full. As well, the Company's holding in WMSA increased to 95%. Accordingly, as of August 31, 2020, Lhotka's outstanding contribution is $Nil.

6. Mineral Properties and Deferred Exploration Costs (continued)

c) Lolita Project (continued)

Effective September 1, 2020, the allocation of expenditures will be based on the 95% interest for the Company and 5% for Lhotka until cumulative expenditures exceed $500,000.

As of June 30, 2026, the cumulative loan to WMSA and expenses incurred by the Company after the incorporation of WMSA totals $1,874,675 (December 31, 2025 - $1,851,298) with Plato accounting for $1,787,777 (December 31, 2025 - $1,765,569) and Lhotka $86,898 (December 31, 2025 - $85,729).

As at June 30, 2026, $86,035 (December 31, 2025 - $84,867) is receivable from Lhotka on a standalone unconsolidated basis. Once the Company has received this amount from Lhotka, $79,175 (December 31, 2025 - $78,775) of the intercompany loan receivable from WMSA, which is eliminated on consolidation, will be payable by WMSA to Lhotka. On the consolidated statement of financial position, the receivable from Lhotka is presented on a net basis under other receivables with a balance of $6,861 as at June 30, 2026 (December 31, 2025 - $6,092).

The option agreement, including the amendment, was in good standing as at June 30, 2026, and there were no breaches of any covenants, terms or conditions in respect thereof.

Pursuant to an impairment analysis performed on the Company's Lolita property as at December 31, 2015, the Company decided to write down the carrying value of the property totaling $321,275 to $Nil. The Company's interest in the Lolita project remained unchanged for the year ended December 31, 2024, the Company has determined not to substantiate the carrying value of the properties until there are expenditures by the Company on exploration and evaluation of mineral resources for this property. As of December 31, 2024, the Company had incurred and written down $418,613 of project related costs.

During the year ended December 31 2025, the Company incurred expenditures of $1,211,096 for the Lolita property, which were capitalized as mineral properties and deferred exploration costs on the statement of financial position. As at June 30, 2026, total expenditures on the Lolita property were $1,678,968 (December 31, 2025 - $1,629,709).

d) Timmins Gold Project

The Timmins Gold Project historically comprised of four properties along the Destor-Porcupine Fault Zone located east of Timmins. Pursuant to the April 1, 2026 asset purchase agreement described below, the Company sold its interest in the Guibord, Marriott and Holloway properties and retained its 20% interest in the Harker property. The properties are subject to a 2% net smelter royalty held by a former director of the Company.

6. Mineral Properties and Deferred Exploration Costs (continued)

d) Timmins Gold Project (continued)

Pursuant to an impairment analysis performed on the Company's Timmins property as at December 31, 2015, the Company decided to write down the carrying value of the property at December 31, 2015 totaling $1,010,246 to $Nil. While the Company's interest in the Timmins project remains unchanged for the year ended December 31, 2025, the Company has determined not to substantiate the carrying value of the properties. Accordingly, all costs incurred as of December 31, 2025, were written off as an impairment loss. As of December 31, 2025, the Company has incurred and written down $1,381,488 of project related costs.

During period ended June 30, 2026, the Company entered into a definitive asset purchase agreement with Mayfair Gold Corp. (the "Agreement") for the sale of interests in the Timmins properties. The Agreement, dated April 1, 2026, includes the sale of the Company's 50% interest in the Guibord property, 100% interest in the Marriott property, and 100% interest in the Holloway property for total cash considerations of $2,500,000.

During the period ended June 30, 2026, the Company received $2,500,000 related to the transfer of the Marriott Property, Holloway Property and Guibord Property to Mayfair Gold Corp and recorded a gain on disposition, net of costs, of $1,046,324.

During the period ended June 30, 2026, the Company has reversed the write-down of project related costs, totalling $1,381,488 and incurred $2,197 of additional expenditures. The reversal does not exceed the carrying amount that would have been determined had no prior impairment/write-down been recognized.

7. Due to Related Company

As at June 30, 2026, the Company owes $707,169 (December 31, 2025 - $663,169) to a related company. Amounts due to the related company are non-interest bearing, unsecured and due on demand. The Company and the related company have a director in common. This director is also a shareholder and an officer of both companies.

8. Promissory Notes

During the year ended December 31, 2025, the Company issued two unsecured promissory notes bearing interest at 7% per annum and maturing on June 10, 2026. The notes matured and remained unpaid as of June 30, 2026. Subsequent to the period ended June 30, 2026, on August 19, 2026, the Company entered into second amendment agreements with maturity date of February 19, 2027. All other terms of the original agreements remain unchanged. As at June 30, 2026, the principal balance outstanding on the promissory notes is $1,567,550 (December 31, 2025 - $1,567,550) and the accrued interest is $121,514 (December 31, 2025 - $67,401). The accrued interest on the promissory notes is recorded under accounts payable and accrued liabilities.

8. Promissory Notes (continued)

One of the promissory notes is issued to a related corporation. The Company and the related corporation have a director in common. This director is also a shareholder and an officer of both companies. As at June 30, 2026, the principal balance owed to the related corporation under the promissory note is $1,498,500 (December 31, 2025 - $1,498,500) and the accrued interest is $115,793 (December 31, 2025 - $64,064).

9. Share Capital

a) Authorized

The Company is authorized to issue an unlimited number of common shares with no par value. The Company is authorized to issue an unlimited number of preferred shares with par value, of which none have been issued.

b) Common Shares Issued and Outstanding

	Number	Amount
Balance - January 1, 2025, December 31, 2025, and June 30, 2026	230,665,717	$ 10,062,848

10. Share-Based Compensation

a) Stock Option Plan

The Board of Directors has adopted a stock option plan for the Company (the "Plan"). Pursuant to the Plan, the Board of Directors may, from time to time at its discretion, allocate non-transferable options to purchase shares to directors, officers, employees and consultants of the Company. Under the Plan, the aggregate number of shares to be issued upon the exercise of options granted thereunder may not exceed 10% of the number of issued and outstanding shares at the time of granting the options. Options shall expire no later than ten years after the date of grant.

The exercise price of options granted pursuant to the Plan shall be established based on the average closing price of the shares for the five days prior to the date of grant or such other method of pricing as may be acceptable to the stock exchange on which the shares are listed. The options shall vest and may be exercised as determined by a resolution of the Board of Directors.

10. Share-Based Compensation (continued)

b) A summary of changes to stock options is as follows:

	Number	Weighted Average Exercise Price
Balance - January 1, 2025	16,980,000	$ 0.085
Expired (i)	(1,150,000)	(0.100)
Balance - December 31, 2025 and June 30, 2026	15,830,000	$ 0.084

All outstanding options have fully vested and are exercisable. During the year ended December 31, 2025, 1,150,000 options granted to a prior director expired unexercised.

As at June 30, 2026, the following options were outstanding and exercisable:

	Number of Options			
Exercise Price	Unvested	Vested	Weighted average remaining life (years)	Expiry Date
$0.100	-	5,980,000	2.33	October 29, 2028
$0.100	-	4,750,000	2.82	April 23, 2029
$0.050	-	5,100,000	4.81	April 22, 2031
	-	15,830,000	3.28	

As at December 31, 2025, the following options were outstanding and exercisable:

	Number of Options			
Exercise Price	Unvested	Vested	Weighted average remaining life (years)	Expiry Date
$0.100	-	5,980,000	2.83	October 29, 2028
$0.100	-	4,750,000	3.31	April 23, 2029
$0.050	-	5,100,000	5.31	April 22, 2031
	-	15,830,000	3.77	

11. Related Party Transactions

During the period ended June 30, 2026, the Company:

a) Incurred rent of $1,200 (2025 - $1,200) with a related company. The Company and the related company have an officer in common. This officer is also a director and shareholder of both companies. As at June 30, 2026, accounts payable and accrued liabilities included $27,000 (December 31, 2025 - $25,800) related to rent payable.

b) Incurred consulting fees of $50 (2025 - $50) with the Company's current CFO. As at June 30, 2026, accounts payable and accrued liabilities included $50 (December 31, 2025 - $Nil) of consulting fees payable to the current CFO.

c) Incurred consulting fees of $250,000 (2025 - $50) with the Company's former CFO. As at June 30, 2026, accounts payable and accrued liabilities included $250,000 (December 31, 2025 - $72,000) of consulting fees payable to the former CFO.

d) Incurred consulting fees of $50 (2025 - $50) with the Company's Corporate Secretary. As at June 30, 2026, accounts payable and accrued liabilities included $50 (December 31, 2025 - $Nil) of consulting fees payable to the Corporate Secretary.

e) Incurred salaries of $50 (2025 - $50) with the Company's CEO. As at June 30, 2026, accounts payable and accrued liabilities included $50 (December 31, 2025 - $Nil) of consulting fees payable to the CEO.

f) Incurred directors' fees of $250 (2025 - $250). As at June 30, 2026, accounts payable and accrued liabilities included $250 (December 31, 2025 - $Nil) of directors' fees payable.

g) Other related party transaction information is disclosed in notes 7 and 8.

12. Financial Instruments

a) Liquidity Risk

Liquidity risk refers to the risk that the Company will not be able to meet its financial obligations when they become due. The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities as they become due. As at June 30, 2026, the Company had current assets of $131,809 (December 31, 2025 - $34,391) to settle current liabilities of $3,406,979 (December 31, 2025 - $3,216,411). With the exception of promissory notes, all of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms.

12. Financial Instruments (continued)

a) Liquidity Risk (continued)

The Company has no operating revenue and relies on debt and equity financing to support its exploration program. Additional financing is required to fund the related operating expenses required to manage the Company through fiscal 2026. Management prepares budgets and ensures funds are available prior to commencement of any exploration program. During the period ended June 30, 2026, the Company received the majority of its financing from proceeds from sale of its mineral properties and advances from related parties.

b) Market Risk

Market risk is the risk of loss that may arise from changes in market factors such as foreign exchange rates, interest rates and equity prices.

(i) Foreign Exchange Risk

The Company is exposed to financial risk related to foreign exchange rates. The Company operates in Canada and Argentina. A significant change in the currency exchange rates between the Canadian dollar and Argentinean peso could have an effect on the Company's results of operations.

At June 30, 2026, the Company is exposed to currency risk through Argentinean cash expressed in Canadian dollars of $3,976 (December 31, 2025 - $9,606). A 10% depreciation or appreciation of the Canadian dollar against the Argentinean peso would result in an increase/decrease of approximately $398 (December 31, 2025 - $961) in the Company's condensed interim consolidated statement of income (loss) and comprehensive income (loss).

(ii) Equity Price Risk

The Company is exposed to price risk with respect to equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. The Company's portfolio investments are subject to fair value fluctuations arising from changes in the equity market. As at June 30, 2026, should the equity prices of the Company’s holdings increase or decrease by 10%, the impact on net income (loss) and comprehensive income (loss) would be approximately $199,966 (December 31, 2025 - $Nil).

(iii) Interest Rate Risk

The Company has promissory notes with fixed interest rates and as a result, fluctuations in interest rates do not have a significant impact on the Company as at June 30, 2026. The Company is subject to fair value risk on its fixed rate promissory notes.

13. Capital Disclosures

The Company's objective when managing capital is to raise sufficient funds to execute its exploration plan. As at June 30, 2026, the Company's capital consists of shareholders' equity in the amount of $2,670,132 (December 31, 2025 - $702,982).

The properties in which the Company currently has an interest are in the exploration stage; as such, the Company is dependent on external financing to fund its activities. In order to carry out the planned exploration and pay for administrative costs, the Company intends to use its available cash and raise additional amounts as needed.

The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. Although the Company has been successful at raising funds in the past through the issuance of share capital, it is uncertain whether it will be able to continue this financing due to the uncertain economic conditions. The Company believes that it will be able to raise sufficient funds from share issuances to fund its operations for the coming year. The Company does not have any externally imposed capital requirements. There were no changes in the Company's approach to capital management during the period ended June 30, 2026.

14. Subsequent Event

A subsequent event has been disclosed in note 8.
